

Annex A: Qualified Experts for Regenerative Plan Development

A Greener World defines a Qualified Expert as: A person who has a comprehensive and authoritative knowledge of the subject for which their expertise is sought. Qualified experts must not be suspended from or have been subject to any disciplinary action from any relevant professional body.

For *Certified Regenerative by AGW*, a Qualified Expert must also understand*:

- local / regional conditions
- soils and geology
- watercourses
- agricultural inputs and their interaction with soil biology
- biodiversity
- grazing systems
- social justice
- map reading
- how to carry out lifecycle assessments
- how to do risk analysis

A Qualified Expert might be a keeper of Traditional Ecological Knowledge (TEK) pertaining to local agriculture.

* It is possible that not all these attributes will come from one Qualified Expert. Opinions can be sought from multiple Qualified Experts, as long as it is documented.

Note: For assistance in determining who may be a Qualified Expert, please contact AGW.
